

Staying relevant through agility and innovation

BANGALORE CHAPTER ANNUAL CONFERENCE 2018

15 March 2018 – Taj Vivanta, MG Road, Bangalore

*Organised by:
The Institute of Internal Auditors
Bangalore Chapter*

ABOUT THE CONFERENCE

In today's disruptive environment, catching up is no longer enough. Reinventing services and delivery models through the use of bots & cognitive applications that mimic human thinking is the new normal for businesses to flourish. How well are internal auditors keeping up?

The theme of the conference is "Internal Audit – Staying relevant through agility and innovation"; focusing on how the internal audit profession is overcoming the challenges it is facing in the VUCA world.

Our speakers and panelists will include eminent independent directors, business executives, risk professionals and Heads of Audit who will share their experiences in managing risks to their businesses in the current volatile and disruptive markets and in continuing to add value through transformational internal audit.

Transformational internal audit must be accompanied by well thought out assurance / GRC strategy and must challenge internal auditors at all levels to do things differently to remain relevant. When done well, it can enhance risk coverage, provide deeper insight, and increase stakeholder satisfaction. Through foresight and strategic, timely interventions, it can make organizations more agile and resilient.

Who should attend?

This Conference would be particularly useful to Risk Management and Internal Audit Professionals, IS Audit professionals, CEOs, CAEs, CFOs, Chief Risk Officers, practicing Chartered Accountants, Cost Accountants, Company Secretaries and Management Consultants.
